Round Lake Chain Management Plan information meeting set

Sawyer County Record
Last updated: Wednesday, June 20th, 2007 10:07:10 AM

On July 1, 2004 Sawyer County filed a petition with the Wisconsin Department of Natural Resources requesting a clarification of orders relating to the water level on Round Lake. As a result, a work group was formed in May 2005 to begin the process of clarifying the issues, identifying the needs of the resource and developing management recommendations.

Upcoming meetings will provide an opportunity to share the information gained through the process from engineering studies and the draft management plan document with the public. Members of the Round Lake Management Plan Work Group and the engineering consultant will be present to answer questions from the audience.

The informational meetings will be held on June 29, 6 p.m. to 8 p.m. at the Hayward High School auditorium and on July 6, 6 p.m. to 8 p.m. at the LCO Convention Center. For more information contact the Sawyer County Land & Water Conservation Department at 634-6463.
